**A ALTAR CANDLES WITH BEESWAX RANGE** from 1/2" to 3" Diameter and including our fluted church candles

**B PURE WHITE HARD WAX CANDLES** with vegetable Sterine. Sizes from 1 3/8" to 2" including fluted

**C HANDMADE CANDLES**

The timeless, traditional manner of candle making, by dipping a specially selected wick many times into wax, produces the finest candles made for both appearance and the quality of burning. All handmade candles are made to order and are available in a variety of sizes. On occasion this can mean 3-4 week production time. For special requirements including spiking and shouldering or unbleached candles please contact customer service on 01747 861839

All sizes can be made in unbleached beeswax for requiem use

**D SPRING LOADED CANDLES** from 3/4" to 1 1/8" to fit mechanisms shown

**E CANDLE CAPS**

Candle Caps are made of accurately weighted metal with an ivory finish and should only be used with specially made candles that can support the weight of the cap and burn creating less heat. If used with standard candles this can lead to the candle bending. Sizes from 3/4" - 3" available

## PYLON OIL CANDLES

This simple and successful oil filled alternative to wax candles has proved useful for churches where draughts are a problem. They are also very suitable as Acolyte candles. The diameters available are 30, 35, 40, 50, 75 & 90mm and lengths 9", 12", 15", 18", 24", 30" and 36". These can all be shouldered to fit the internal dimensions of existing sockets. Other sizes on application. Used in conjunction with Charles Farris Ltd Church Candle Oil, the fibre wick inside each of these candles does not need trimming or replacing and the burning is virtually smoke free. Please contact customer service for further information.
